

# Make Inquiry Cartridge Setup Guide

You need to follow below steps to install and configure the “Make Inquiry” Cartridge:-

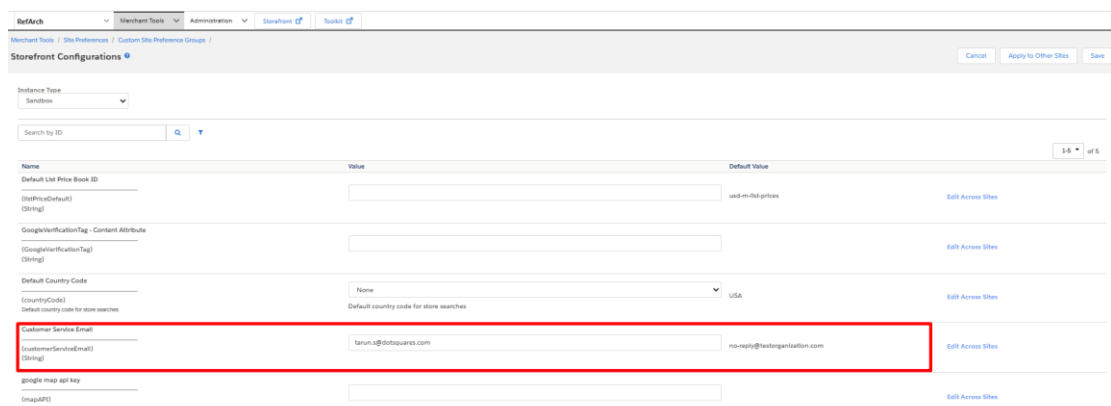

- First you need to install the “Make Inquiry” cartridge from Appexchange.
- After that go to business manager and setup the cartridge path.
- Go to the custom object types in business manager and create new custom object named “Inquiry”.
- Create some custom fields in Inquiry object:- Customer Number, Customer Name, Email Address, Question, Product Id.
- Please take the reference the below screenshot. Please make sure to put exact letters that is provided in screenshot in ID for fields.

The screenshot shows the 'Search Attribute Definitions' page in Salesforce. It features a table with columns: Select All, ID, Name, Type, Attribute Settings, Values, and Edit. The table lists several attributes including ContactNumber, CustomerName, EmailAddress, Inquiry\_No, Question, UUID, creationDate, lastModified, and productId. Each row has a checkbox in the 'Select All' column and an 'Edit' link in the 'Values' column. The 'Inquiry\_No' row is highlighted with a yellow background.

Select All	ID	Name	Type	Attribute Settings	Values	Edit
<input type="checkbox"/>	ContactNumber	Contact Number	Number		0	Edit
<input type="checkbox"/>	CustomerName	CustomerName	String		0	Edit
<input type="checkbox"/>	EmailAddress	Email Address	String		0	Edit
<input type="checkbox"/>	Inquiry_No		Integer	*	0	Edit
<input type="checkbox"/>	Question	Question	String		0	Edit
<input type="checkbox"/>	UUID	UUID	String	*	0	Edit
<input type="checkbox"/>	creationDate	Creation Date	Date+Time	*	0	Edit
<input type="checkbox"/>	lastModified	Last Modified	Date+Time	*	0	Edit
<input type="checkbox"/>	productId	productId	String		0	Edit

- Setup the email on which you want to receive product inquiries in “Customer Service Email”. Please ignore this step if you have already an email in Customer Service Email.

The screenshot shows the 'Storefront Configurations' page in Salesforce. It contains various configuration fields for the storefront. The 'Customer Service Email' field is highlighted with a red box. The field is labeled 'CustomerServiceEmail' and has a value of 'tanuj@dataquest.com'. There is also a 'Default Value' field next to it with the value 'no-reply@tektongarization.com'.

Name	Value	Default Value
Default List Price Book ID		usd-in-18k-prices
Shopify(Default)		
GoogleVerificationTag - Content Attribute		
GoogleVerificationTag		
Default Country Code		USA
CountryCode		
Default country code for store searches		
Customer Service Email	tanuj@dataquest.com	no-reply@tektongarization.com
CustomerServiceEmail		
google map api key		
mapAPI		

- After completing these steps customers can send the inquiries related to products.
